The purpose of the Club is to exchange information about: the history of the company, tractor serial numbers, production changes, restoration information and details, parts & literature sources, and attachments. The Club's newsletter, *The Gazette*, is our communications link. The newsletter contains articles of general interest, technical help, free classified ads to our members, dates of tractor events, & letters to the editor. If you have any interesting Gravelly® stories that you would like to share with the membership or if you would like to submit an article on any Gravelly® subject for publication, please send the material to the Editor or to any Club Director or Officer.

We also have available a reprinted article from the 1997 Summer Issue of *Goldenseal*, the West Virginia Division of Culture and History magazine. This is a 12 page article about Ben Gravelly and his tractor. To order this reprint, enclose an additional \$6 with your application.
